Everyone Learns Differently: Navigating Learning "Disabilities" All The Way to the NFL

This presentation moves people from all walks of life, especially students and educators. Everyone Learns Differently is a message that is not singular to people with learning differences but something that everyone can relate to. Growing up, Xavier's parents and teachers noticed his reading and writing comprehension were minimal, and he was diagnosed with dyslexia and several other learning disabilities, later being placed in special education classes. This is something that could have defined his future but instead, Xavier reached heights that his younger self never could have imagined- and continues to. Empower your organization with this speech that resonates with all, making people feel like they can overcome their challenges too.

How to Be On the Right Side of History
